Seller's description

VERY RARE!! This is an auction for 1/72nd scale model of a Studebaker Automobile Dealership. The model was released by Shrock Bros. Toys. In 1994 the company began producing Studebaker replicas in 1/72nd scale. One of the early offerings in this scale was a miniature dealership building which included 4 cars and an auto hauler. This early version of that item even had a single battery powered interior light. I placed new batteries in the model (they will be included) just before taking the photo and none were previously stored inside the model so there is no corrosion. The building model is very detailed and comes with accessories. The dealership building has 2 operable bay doors that can be moved from either outside the building through an access slot using a key or with the roof off from the inside. This model is in excellent shape although a couple of the exterior walls are slightly warped from age. There is also a small location on the roof that you may wish to do a little flat gray touch up painting but that will be for you to decide if it is important.

Besides the dealership building model you also get the following:

- (1) 1935 Studebaker President Conv. Sedan - Verdant Metallic
- (1) 1935 Studebaker Commander Roadster - Canary Yellow
- (1) 1935 Studebaker Commander Coupe - Roosevelt Maroon
- (1) 1935 Studebaker Commander Landcruiser - Black
- (1) 1935 Big Chief Tractor - Red
- (1) Car Carrier Trailer - Silver

The autos are made from pewter and feature a hand rubbed acrylic enamel finish. Since The Shrock Brothers have an auto body heritage and it really shows here as the paint on these models is spectacular. Wheels are not designed to roll.

This was a limited production run item that has not been available for many years. The original retail for this set was around \$250.00

All of the original boxes are included. For the serious Studebaker collector I think has got to be a must have item.

The "Buy It Now" option on this auction will only be available until the first bid is placed.

PLEASE NOTE: Please be very careful moving the on off switch for the light it puts pressure on the battery holder when you engage it so be extra careful.

PLEASE NOTE: Although not shown in the photo the unloading ramp parts are included for the trailer.

Building front is approx. 9" long.

Autos are approx. 3" long.

Car Carrier is approx 10" long.
